**SHARP**  
Be Original.

# Create Impact with Auto Lamination

Save time, lower costs and increase productivity with no stress. Professional and consistent results every time.

## Protect

- Ideal for frequently handled items such as menus and teaching flash-cards
- Prevents damage to paper materials
- Water/oil resistance: perfect for outdoor signs and menus

## Professional Appearance

- Make an impression: Brightens colours and deepens contrast
- Enhance printed materials and gives a professional brand image

## Clean, Durable and Permanent

- Save costs: Laminated documents can be re-used without the need to be reprinted
- Easy wipe clean surface for cleanliness and hygiene

## The ideal partner for:

**EDUCATION:** perfect for print rooms transforming teaching resources into permanent and professional materials; create vibrant and eye catching signage.

**GOVERNMENT:** Save time and cost by creating signage or health and safety notices in house. A quick and permanent way of developing durable and professional looking instructions and training resources.

**CONSTRUCTION:** protect plans and instructions making them water and dirt resistant which means information is always clearly displayed to avoid any ambiguity or mistakes

**RETAIL:** promote special offers and increase customer engagement with eye catching signs. Matt film is especially suitable for areas of bright or direct sunlight. Laminated signs are ideal for outdoor displays in garden centres.

**HOSPITALITY:** create spill resistant and professional looking wipeable menus that can be reused over a long period of time which saves printing costs. Highlight promotional offers with attention grabbing signs.

**HEALTHCARE:** Gloss film can be written on with a dry wipe market pen making laminated forms ideal for routine checklists. Health and Safety notices appear professional and are protected from damage.

# Maximise your efficiency

## Revo Office benefits: helping you to work smarter

The Revo Office offers a fully automated laminating process and can produce more than 3 times more sheets than some equivalent pouch laminators, all without the need for an operator constantly standing over it to feed in sheets of paper.

Featuring a reliable automatic feed system together with a series of rollers it gives a mark free and consistent finish with perfectly aligned margins. The large capacity sheet feeder also takes up to 200 sheets of A4 80gsm paper which means that once the 'start' button is pressed, an operator can walk away and return to retrieve the completed lamination sheets.

**Durable:** designed for high volume lamination with minimal maintenance, users of traditional pouch laminators will realise long term savings in equipment and labour costs.

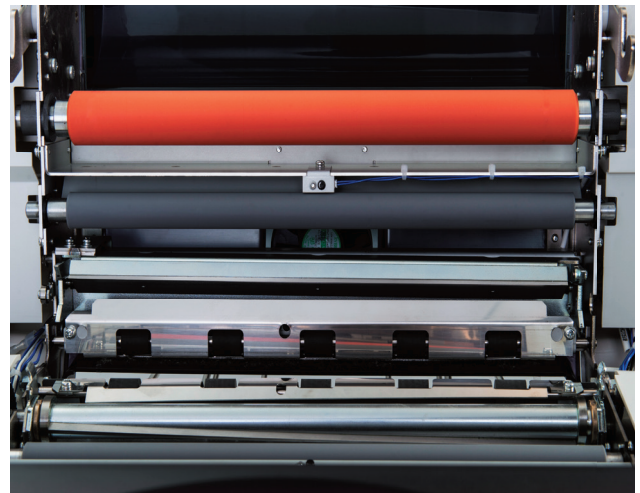

**Ease of use:** a simple and intuitive control panel starts the process with one touch.

**Fast and Efficient:** Offering up to 240 sheets per hour, the Revo Office operates up to 3 times faster than some manual laminators freeing your staff up to focus on other tasks.

**Consistent Results:** automatic sheet feeder and smooth rollers give a flawless finish every time without uneven edges.

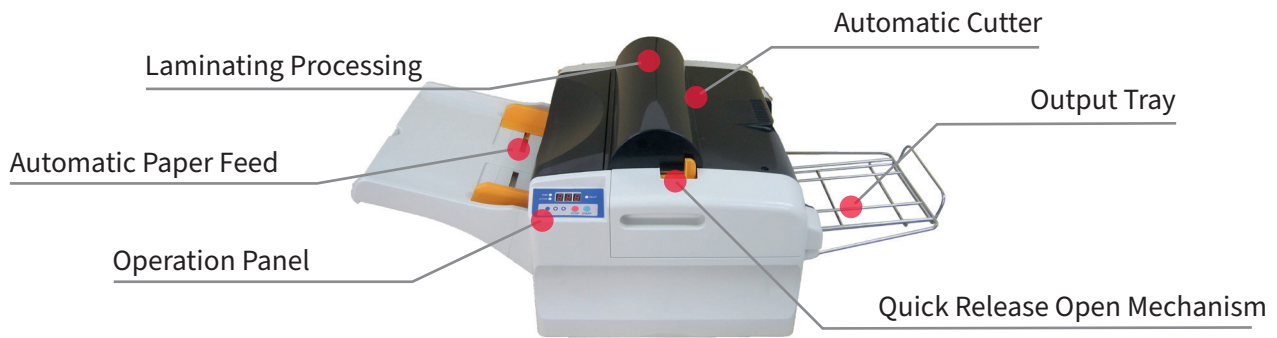

**Margin Shift:** margins can be adjusted to allow for binding or if a wider border is required.

**Flexible finishing:** the twin roller design allows for different finishes to be used, for example, gloss on the back for non-slip and non reflective matt on the front.

**Cut Intervals:** the cut interval can be set to allow for daisy chain lamination, a useful feature if larger signs are needed. Minimise waste with the automatic paper end detection. This also allows for long paper to be used with excellent results.

## Specifications

Max Laminating Width	A3 (305mm)
Film Thickness	50 / 80 / 100 / 125
Max Speed	1.0 m/min
Laminating Temperature	100°C (variable)
Power Consumption	AC 230V 1,150 W
External Dimensions (W x D x H)	680* X 506 X 337
Weight	30kg
Warm-up Time	5 minutes (approx.)

\*excluding discharge tray

## Package Contents

## Consumables

Offering a choice of different film finishes and thicknesses to suit a wide variety of applications.
